- No answer, don't know
- 1. Wages - too low
- 2. Prices and/or cost of living: too high
- 3. Vicious circle: of prices and wages
- 4. Impossible to control: not practical, tried before and didn't work, not right time
- 5. Hopeful attitude: time will take care of it, things will level off, law of supply and demand will level it
- 6. Controls mean: subsidies, cutting down incentives, discouraging free enterprise
- 7. Controls create: black markets, artificial markets, destroy our economy
- 8. Against government controls: socialistic, too much power for government, government would abuse it

- 2. Prices and/or cost of living: everything too high, going up too fast
- 3. Vicious circle
- 4. Will stop inflation and/or stabilize the economy
- 5. Something has to be done
- 6. If done properly: if properly controlled, if prices and wages brought into line
- 7. Fixed income people are taking a beating; white collar workers, pensioners would benefit
- 8. Controls worked before
- 9. Control wages only
