12C. Why do you approve of this new Security Agency?

UPPER

1. NEED SERVICE BECAUSE OF LEAKS/SPIES/SUBVERSIVE ACTIVITIES: need more security service with information leaks taking place, we have to be aware of foreign agents in Canada and it would keep an eye on them, need watch professionals because of east-west situation, the Russians secure their country we have to secure ours.
2. NEED/REQUIRE SECURITY SYSTEM (UNSPECIFIED): it is sneaky but every country needs it, we need security, somebody has to do what needs to be done, we're in a dangerous world we have to protect ourselves and our country, the security we have now is so outdated you can get sick, they have to clamp down on things, too easy for people to cone into country, communism is dangerous - the only danger facing Canada, at the present time we need the new system of security because of other countries with nuclear power.
3. REMOVE FROM RCMP/POLICE: they say there are a lot of corrupt policemen and I think they would crack down on this and take a load off the policemen, it has to be done division of responsibility when RCMP had it was not good.
4. QUALIFIED: to little capability, but I'm nervous about the power they get.

12c. Why do you disapprove of this new Security Agency?

UPPER

1. INFRINGEMENT OF RIGHTS/INVASION OF PRIVACY: given too much freedom our civil rights should be greater than their investigative powers, its just another freedom taken away, because there will be more of a police state and want of privacy, I believe letters are a private matter, can tap phones and search houses.
2. TOO MUCH POWER/UNCONTROLLED: the agency could have too much power over people, too many broad powers, don't like the idea of them having such a free hand; those things get out of control, power without controls can be abused needs a system of checks and balances to govern use, government has too much control already, think the government will have too many arbitrary powers, some of the proposal could be dangerous.
3. NOT ACCOUNTABLE: don't think theres enough responsibility to prevent missuse, ther're not accountable to anybody else.
4. BILL IS TOO GENERAL/VAGUE: the poorly defined terms in which they can evade the law.
- 5.
- 6.
7. NOT NEEDED/ADEQUATE SERVICE NOW: should stay with mounties, use what agencies we have sensible, have adequate service now with RCMP, I'm always against secret service or principal, too many agencies now, they can already get enough information, RCMP should look after it - not private sector, because I think it turns out to be the KGB in Russia.
